

Waiting for Shadow: Tracking Jane, prequel

Major Jane McMurtry has learned to walk again after an IED ripped into her legs, but will she also rediscover how to live? Fitted with a new set of prosthetic legs, Jane can do more now. She can start tracking again with her new dog. She can go for long walks around her Colorado ranch. An opportunity for a career assisting law enforcement presents itself. But much more is pressing down on Jane. She misses Shadow, the military K9 partner she trained and had to leave in Afghanistan. If he could come home. If she only had Shadow at her side, she'd handle things better. Unfortunately, it doesn't look like hell will come soon, not before he finishes his tour of duty. That's what Army regs and bureaucrats say. This leaves Jane to face her pain alone and either fold under its weight, or push on as best she can. What readers are saying about Tracking Jane...
...a great and awesome read. I thoroughly enjoyed this book from beginning to end.
...a fascinating story written with excellent insight into the post traumatic [PTSD] situation Jane finds herself in. ...one of the best books I have read in a long time. I could not put it down. Read other episodes in the series This is a prequel to the Tracking Jane series. Together with two subsequent episodes, Shadow-7s and Rover, Waiting for Shadow traces the start of Jane McMurtry's life following her return home from wars that have left her and her K9 companion scarred in many ways. Along with the challenges each episode presents for Jane, the full span of the combined story will portray her struggle to wrestle with her inner strife, to accept herself as she now is, to embrace life, and to love and receive the love of those who care for her.

Et les renforts arrivent encore Bon Ã sera la derniÃre revue de troupes de la semaine. Donc on arrive Ã 300 figurines il en reste donc 420... mais Ã va Ã avance bien. Je m'amuserais surtout sur les petites piÃces. LÃ c'est du monobloc donc mÃme si la ligne de moulage est visible -donc il faut Ãbarber presque tout le tour de la figurine... oui oui.- Comme Ã chaque dÃbut de dÃfi, je suis dans les temps, limite mieux qu'espÃrer. Mais par

expérience je sais que c'est le creux du d'effi qui m'est fatal donc on verra quand j'aurais tout "barb" :) Publié par CdtK le 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de l'ger à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'accord de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
