

## The Shaman and the Water Serpent

The Shaman and the Water Serpent is a book for children that demonstrates how ancient Puebloan peoples carried out their daily lives. Renowned childrens author Jennifer Owings Dewey writes about the Puebloan peoples relationships with animals, and Benton Yazzie recreates the rock art depictions of familiar animals: deer, antelope, and rabbits. Characters include the shaman, a man with supernatural power who provides insights into the mysterious world of gods and the spirits. Men and boys honor the animals they hunt by singing songs to their spirits, while the women, children, and old people wait hungrily back in the village. A drought has set in and the villagers wonder when the rains will return. As they hope for rain, the women and girls tend to the corn and the men sharpen their arrow points for the next hunt. The water serpent, a revered animal, travels along the riverbanks and is thought by the Puebloan peoples to be just the animal to coax the rain back onto their dry fields.

Et les renforts arrivent encore Bon Åsa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åsa va Åsa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅme si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åsa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÅt-. Mais Å quoi Åsa correspond? Donc dire des trous c'est bien mais Åsa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅsu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÅme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu faire celle lÅ et autant en 8cm, Åsa va. Il faut voir ce que cela m'aurait coutÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÅme un trÅs bon rapport qualitÅ-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åsa sera parfait je pourrais retourner Å mes figurines.
