

Wild Places (Marshall Travel Atlas)

This is a reference to over 50 of the last truly wild places of the planet. The book contains an 11-page gazetteer which provides insights into more than 80 other wild places, including officially recognized World Heritage Sites and Wilderness Areas. Illustrated features consider the human dimension and the interaction between indigenous peoples and nature. Locator maps direct the reader to each area, and specially designed eco-diagrams reveal the interlocking factors that shape the terrain and climate of a particular region. Photography and explanatory side-boxes identify the hardy animals and plants that have adapted to the wilderness. The atlas offers the ecologically-minded world traveller a chance to discover the diversity of natures untouched realms. Readers traverse the globe through seven chapters that capture more than 40 wilderness zones in photographs and descriptive essays. There is coverage of habitats as forbidding as the Tibesti Mountains deep in Africa's Sahara Desert, or the peaks and plateaux of Tadjikistan's Pamirs. There are places as rarefied as the rainforest at the tip of Australia's Cape York or Georgia's primeval Okefenokee Swamp.

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de léger à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis désolé de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça

va. Il faut voir ce que cela m'aurait couté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
