Not illustrated. 1844 edition. Excerpt: ...hkn may possibly be better known than the motives that actuated me at the time.--Hawkins.--Miss Hawkins's Memoirs, vol. i. p. 264., tells this story in the same way, supplies Steevens's name, and insists on the same justification, which would be quite inconclusive, even if the fact on which the suspicion against Steevens VOL. IX. M At the mention of this circumstance, Johnson paused; but recovering himself, said, You should not have laid hands on the hook; for had I missed it, and not known you had it, I should have roared for my book, as Othello did for his handkerchief, and probably have run mad. I gave him time, till the next day, to compose himself, and then wrote him a letter, apologising, and assigning at large the reasons for my conduct; and received a verbal answer by Mr. Langton, which, were I to repeat it, would render me suspected of inexcusable vanity (); it concluded with these words, If I was not satisfied with this, I must be a savage. 7th. I again visited him. Before my departure, Dr. Brocklesby came in, and, taking him by the wrist, Johnson gave him a look of great contempt, and ridiculed the judging of his disorder by the pulse. He complained, that the sarcocele had again made its appearance, and asked if a puncture would not relieve him, as it had done the year before? The doctor answered, that it might, but that his surgeon was the best judge of the effect of such an operation. Johnson, upon this, said, How many men in a year die through the timidity of those whom they consult for health! I want length of life, and you fear giving me pain, which I care not for. 8th. I visited him with Mr. Langton, and found what was grounded were true; for the purloined paper was only a copy of an address from...

Et les renforts arrivent encore Bon Åa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅame si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÅt-. Mais Å quoi Åa correspond? Donc dire des trous c'est bien mais Åa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÅme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÅ et autant en 8cm, Åa va. Il faut voir ce que cela m'aurait coutÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÅme un trÅs bon rapport qualitÅ-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åa sera parfait je pourrais retourner Å mes figurines.
