

Kiwi Adventures (Adventure Series)

The land of the Kiwis is a fascinating country. Not only does New Zealand have one of the most unusual flightless birds (the kiwi itself) - it has many other claims to fame as well. If you thought it was the Wright brothers who first flew in an airplane - think again - the kiwis reckon it was one of their own, Richard Pearse. But there is no disputing that it was a New Zealander, Murray Kendon, who started Mission Aviation Fellowship. MAF planes are used across the world to bring help, and the good news of Jesus Christ, to thousands of people in far-flung places. New Zealand has other claims to fame, too. It's definitely a fascinating country to visit through the pages of this book. You'll be introduced to the Maori people - who have a language and history of their own. You'll see animals and birds that will amaze and enthral you (such as penguins, the majestic albatross and sea lions). There are dolphins and whales too! Also watch out for the Moeraki Boulders and the green parrot of night, the kakapo! Get on the board and explore this wonderful part of God's world! Come along on the journey!

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de léger à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis désolé de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les

trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines. Publié par CdtK 09:52 2 commentaires: Liens vers cet article Envoyer par e-mail BlogThis!
