

## Desert Drop (Las Vegas Mystery Book 3)

Private investigator and former homicide detective Alice James was just six months old when her father, Leon Stapper, abandoned his family. Forty years later, Alice has convinced herself she's over it until her half sister, Corina, calls her up and wants to meet. But before Alice and Corina can get acquainted, everything goes terribly, tragically wrong. Determined to uncover the truth behind what happened to her sister, Alice calls in reinforcements: Jim Snow, her partner in Las Vegas's James & James Detective Agency who knows a thing or two about family drama. Their investigation takes them from Sin City to Silicon Valley, where Alice and Corina's father reigns as a high-tech CEO. As Alice and Jim dig for clues, they find that Leon's best friend and attorney Ron Bale took a very personal interest in Corina. Not to mention the fact that he used to be married to Leon's ex-wife until she vanished without a trace. Alice is convinced that if she and Jim can uncover the truth about the missing wife, they will discover what happened to Corina. But first, they will need a little help from some old friends. Smart, sharp, and entertaining, Desert Drop is the third installment of Rex Kusler's Las Vegas Mystery series, starring one of contemporary crime fiction's favorite investigating duos.

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200

trous c'est : 594 soldats -de l'acier lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'accord de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
