

The Victory of Reason: How Christianity Led to Freedom, Capitalism, and Western Success

Many books have been written about the success of the West, analyzing why Europe was able to pull ahead of the rest of the world by the end of the Middle Ages. The most common explanations cite the West's superior geography, commerce, and technology. Completely overlooked is the fact that faith in reason, rooted in Christianity's commitment to rational theology, made all these developments possible. Simply put, the conventional wisdom that Western success depended upon overcoming religious barriers to progress is utter nonsense. In *The Victory of Reason*, Rodney Stark advances a revolutionary, controversial, and long overdue idea: that Christianity and its related institutions are, in fact, directly responsible for the most significant intellectual, political, scientific, and economic breakthroughs of the past millennium. In Stark's view, what has propelled the West is not the tension between secular and nonsecular society, nor the pitting of science and the humanities against religious belief. Christian theology, Stark asserts, is the very font of reason: While the world's other great belief systems emphasized mystery, obedience, or introspection, Christianity alone embraced logic and reason as the path toward enlightenment, freedom, and progress. That is what made all the difference. In explaining the West's dominance, Stark convincingly debunks long-accepted truths. For instance, by contending that capitalism thrived centuries before there was a Protestant work ethic or even Protestantism, he counters the notion that the Protestant work ethic was responsible for kicking capitalism into overdrive. In the fifth century, Stark notes, Saint Augustine celebrated theological and material progress and the institution of exuberant invention. By contrast, long before Augustine, Aristotle had condemned commercial trade as inconsistent with

human virtue which helps further underscore that Augustines times were not the Dark Ages but the incubator for the West's future glories. This is a sweeping, multifaceted survey that takes readers from the Old World to the New, from the past to the present, overturning along the way not only centuries of prejudiced scholarship but the antireligious bias of our own time. The Victory of Reason proves that what we most admire about our world's scientific progress, democratic rule, free commerce is largely due to Christianity, through which we are all inheritors of this grand tradition. Et les renforts arrivent encore Bon Åa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅme si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÅt-. Mais Å quoi Åa correspond? Donc dire des trous c'est bien mais Åa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÅme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÅ et autant en 8cm, Åa va. Il faut voir ce que cela m'aurait coutÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÅme un trÅs bon rapport qualitÅ-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åa sera parfait je pourrais retourner Å mes figurines.
