

Skeleton in a Dead Space

An endearing sleuth, a skeleton behind the spice cupboard, and a fistful of subplots that will keep you guessing. A nicely done debut by an author to watch. Susan Wittig Albert, author of the China Bayles mysteries Award-winning historical novelist makes a fine debut in the mystery field with SKELETON IN A DEAD SPACE. Alter gives readers a twisty plot, excellent use of setting, and a very likable protagonist. I hope this is just the first of many novels about realtor/detective Kelly OConnell! Livia J. Washburn, author of the Fresh Baked Mystery series and the Literary Tour Mystery series Skeleton in a Dead Space is a must-read for cozy fans. Kelly OConnell is an engaging realtor with adorable daughters and a talent for trouble. Alters mystery debut stands on a lasting foundation of sinister clients and suspect houses. Location, location, location for murder! Charlotte Hinger, author of Deadly Descent and Lethal Lineage. Kelly OConnell never thought real estate was a dangerous profession, until she stumbled over a skeleton in a dead space in an early-twentieth-century Craftsman house she was transforming into coveted modern home in an older urban neighborhood. From that moment, she runs into teen-age gang members, a manipulative ex-husband, a needy and single pregnant friend, a cold-blooded murderer, and a policeman who wants to be more than her protector. As free-spirited as the chocolate-peanut-jalapeno candy she craves, Kelly barges through life trying to keep from angering her policeman-boyfriend, protect her two young daughters, pacify her worried mother a thousand miles away, and keep her real estate business afloat. Too often she puts herself in danger, and sometimes its the girls, not Mike, who come to Kellys rescue.

figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÃces. LÃ c'est du monobloc donc mÃme si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÃbut de dÃfi, je suis dans les temps, limite mieux qu'espÃrer. Mais par expÃrience je sais que c'est le creux du dÃfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÃ :) PubliÃ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åa fait parti du hobby mais c'est vraiment ce que je dÃteste le plus. Et puis lÃ c'est de l'industriel. Mais voilÃ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÃt-. Mais Å quoi Åa correspond? Donc dire des trous c'est bien mais Åa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÃger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÃÃsu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÃme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÃ et autant en 8cm, Åa va. Il faut voir ce que cela m'aurait coutÃ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÃme un trÃs bon rapport qualitÃ-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åa sera parfait je pourrais retourner Å mes figurines.
