

DYING TO SELL

Real estate agent Kate Doyle knew divorce was messy, but she didn't expect it to be bloody. Kate agrees to sell the home of old friends who're locked in a bitter divorce. She's hoping the upscale house will be an easy sell in the Colorado college town. But her hopes turn to horror when she walks into the lawyer-client's study to find him brutally murdered—stabbed in the throat. A crime of passion, says Kate's police detective brother-in-law. The prime suspect is Kate's close friend, the spurned wife, who begs Kate to help her. Kate's meddling turns up some surprising suspects. The successful lawyer deceived numerous ex-lovers as well as his wife. He'd also played off one land developer against another, dangling a choice tract of land as bait. Businesses were ruined and fortunes lost. Had the loser taken revenge on the wily lawyer? Or had an ex-lover killed in jealous rage? Kate's real estate license helps her dig into the scheming lawyer's dealings as she sifts clues from cyberspace to crawl space. Unfortunately, her snooping tempts the killer to exercise his own license to kill. Maggie Sefton is the New York Times Bestselling, Agatha-nominated author of the Knitting Mysteries. *Dying To Sell* was originally published in hardcover by Five Star/Tekno Books. Published in paperback by Worldwide Mystery Library.

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200

trous c'est : 594 soldats -de l'acier lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'accord de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
