

Advanced Organic Chemistry: Part A: Structure and Mechanisms

The purpose of this edition is the same as that of the first edition, that is, to provide a deeper understanding of the structures of organic compounds and the mechanisms of organic reactions. The level is aimed at advanced undergraduates and beginning graduate students. Our goal is to solidify the students understanding of basic concepts provided in an introduction to organic chemistry and to fill in much more information and detail, including quantitative information, than can be presented in the first course in organic chemistry. The first three chapters consider the fundamental topics of bonding theory, stereochemistry, and conformation. Chapter 4 discusses the techniques that are used to study and characterize reaction mechanisms. The remaining chapters consider basic reaction types with a broad coverage of substituent effects and stereochemistry being provided so that each reaction can be described in good, if not entirely complete, detail. The organization is very similar to the first edition with only a relative shift in emphasis having been made. The major change is the more general application of qualitative molecular orbital theory in presenting the structural basis of substituent and stereoelectronic effects. The primary research literature now uses molecular orbital approaches very widely, while resonance theory serves as the primary tool for explanation of structural and substituent effects at the introductory level. Our intention is to illustrate the use of both types of interpretation, with the goal of facilitating the students ability to understand and apply the molecular orbital concepts now widely in use.

Et les renforts arrivent encore Bon Åa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅame si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ

Partager sur Twitter Partager sur Facebook Partager sur Pinterest LibellÃ©s : Blabla lundi 1 aoÃ»t 2016 Revue des troupes Bon juste une petite photo pour montrer que je passe Ã l'infanterie. j'adore l'Ã©barbage. Oui certains diront que Ã§a fait parti du hobby mais c'est vraiment ce que je dÃ©teste le plus. Et puis lÃ c'est de l'industriel. PubliÃ© par CdtK Ã 17:06 2 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest LibellÃ©s : Blabla vendredi 22 juillet 2016 Pour une poignÃ©e de trous en plus VoilÃ les plaquettes de 6cm ont Ã©tÃ© percÃ©... 1200 trous... oui oui. 1200 trous dans du plexi -vous savez le truc qui se colle une fois sur deux sur la mÃ©che. Mais voilÃ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÃ»t-. Mais Ã quoi Ã§a correspond? Donc dire des trous c'est bien mais Ã§a renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÃ©ger Ã lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÃ©Ã§u de ne pas avoir plus de soldats Ã pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÃ©me table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÃ et autant en 8cm, Ã§a va. Il faut voir ce que cela m'aurait coutÃ© dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÃ©me un trÃ¨s bon rapport qualitÃ©-prix par rapport Ã ce que je recherchais. Il le reste Ã Ã©barber les trous pour y glisser l'aimant et Ã§a sera parfait je pourrais retourner Ã mes figurines.
