

A Summer on Choctaw Mountain

A city boy, unhappy about having to spend the summer with his grandmother in a remote mountain cabin, discovers a whole new world as he adapts to life without electricity and other city conveniences. Adventures, new experiences, and learning about his new surroundings replace TV, video games, and other artificial stimuli. To his own surprise he is perfectly well entertained by the stimuli nature offers. His fear and dependence are replaced by new-found self-confidence and self-reliance, and he reluctantly leaves when his vacation ends. Children of various ages will find special appeal in various ways. For the young, it is simply an entertaining story about a boy spending the summer with his grandmother and of the experiences and adventures he has during that time. It communicates to older children how first impressions can be deceptive and the importance of looking at situations, people, and nature from different viewpoints. New experiences and adventures on each page maintain the level of interest, such as Bobby's initial realization that there is no electricity in his grandmother's cabin and that the television he was expecting to spend his summer with is nowhere to be found, and surely no fun exists without a TV! Or does it? This refreshing story offers opportunity for further development as Bobby realizes that life isn't all in the fast lane.

Et les renforts arrivent encore Bon Åsa sera la dernière revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åsa va Åsa avance bien. Je m'amuserais surtout sur les petites pièces. LÅ c'est du monobloc donc même si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque Åbut de Åfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du Åfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åsa fait parti du hobby mais c'est vraiment ce que je Åteste le plus. Et puis lÅ c'est de l'industriel. une fois sur deux sur la machine. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de l'acier lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'accord de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
