

Away to the Goldfields!

Some things are more precious than gold. Stubborn, spirited Molly Malarky embarks on a life-altering adventure as she and her brother flee their miserable New Hampshire farm on the trail of their widower father, who abandoned them during the first months of the California gold rush. Traveling from Boston, to Panama, across the isthmus, and up the Pacific coast, they find that no part of the journey is easy. Cheats and scalawags abound, the distances are enormous, and unhealthy conditions are inescapable. And for a young woman trying to make headway alongside hundreds of desperate men -- her greedy, bad-tempered, and chauvinistic brother included -- the journey is overwhelming. In this stirring historical story, resourceful Molly is never defeated as she heads west to stake a claim that is bigger and more personal than she ever imagined.

Et les renforts arrivent encore Bon Åsa sera la dernière revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åsa va Åsa avance bien. Je m'amuserais surtout sur les petites pièces. LÅ c'est du monobloc donc même si la ligne de moulage est visible -donc il faut Å barber presque tout le tour de la figurine... oui oui.- Comme Å chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout Å barbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åsa fait parti du hobby mais c'est vraiment ce que je dÅ teste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais Å quoi Åsa correspond? Donc dire des trous c'est bien mais Åsa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅsu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la machine table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu faire celle lÅ et autant en 8cm, Åsa va. Il faut voir ce que cela m'aurait coûtÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport Å ce que je recherchais. Il le reste Å Å barber les trous pour y glisser l'aimant et Åsa sera parfait je pourrais retourner Å mes figurines.
