

What Do You Know about Atoms and Molecules? (20 Questions: Physical Science)

Though they are far too small to be seen with a magnifying glass, much less with the naked eye, atoms and molecules make up every object we encounter. Readers will learn all about these tiny units of matter in this interesting book.

Et les renforts arrivent encore Bon Åa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅme si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÅt-. Mais Å quoi Åa correspond? Donc dire des trous c'est bien mais Åa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÅme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÅ et autant en 8cm, Åa va. Il faut voir ce que cela m'aurait coutÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÅme un trÅs bon rapport qualitÅ-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åa sera parfait je pourrais retourner Å mes figurines.
