

Outlines of Industrial Chemistry: A Text-Book for Students

This book was originally published prior to 1923, and represents a reproduction of an important historical work, maintaining the same format as the original work. While some publishers have opted to apply OCR (optical character recognition) technology to the process, we believe this leads to sub-optimal results (frequent typographical errors, strange characters and confusing formatting) and does not adequately preserve the historical character of the original artifact. We believe this work is culturally important in its original archival form. While we strive to adequately clean and digitally enhance the original work, there are occasionally instances where imperfections such as blurred or missing pages, poor pictures or errant marks may have been introduced due to either the quality of the original work or the scanning process itself. Despite these occasional imperfections, we have brought it back into print as part of our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. We appreciate your understanding of these occasional imperfections, and sincerely hope you enjoy seeing the book in a format as close as possible to that intended by the original publisher.

Et les renforts arrivent encore Bon Åa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅme si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais

fin aoÃ»t-. Mais Ã quoi Ã sa correspond? Donc dire des trous c'est bien mais Ã sa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de l'Ã©ger Ã lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'Ã©su de ne pas avoir plus de soldats Ã pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÃªme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu faire celle lÃ et autant en 8cm, Ã sa va. Il faut voir ce que cela m'aurait coutÃ© dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÃªme un trÃ¨s bon rapport qualitÃ©-prix par rapport Ã ce que je recherchais. Il le reste Ã Ã©barber les trous pour y glisser l'aimant et Ã sa sera parfait je pourrais retourner Ã mes figurines.
