Throw a monkey, a hophead, and a pretty girl in the picture and what have you? Detective Dan Shelby didn't know, but he had the brawn to blaze enough light for his brain to try to solve this.... Bloody Monkey Business 6000 Words Gun Molls Magazine, October 1930 Gorilla Girl by Charlton L. Edholm Cora Corinta was a smooth dame but fierce. And she knew that all romances must end even between a gorilla and a gorilla girl. 4500 Words Real Detective Tales, April-May 1927 The Third Adventure of Professor Forrester THE MONKEY GOD A Thrilling Novelette by Seabury Quinn When Professor Forrester, unique detective, accepted Horatio Milsted's invitation to a jazz house party he feared a dull time and had it. But all at once his dullness vanished, for he was suddenly plunged into a whirl of mystery, and exciting adventure and fearful intrigue, that sharpened his wits and taxed his detective ability to the utmost. The strange theft of Hanuman, the Monkey God, the equally strange death of its owner, the consternation and panic that followed, and the sinister shadow of oriental mysticism, hovering darkly over all these offer material for a brave tale that nobody can tell better than Seabury Quinn. 9200 Words Thrilling Adventures, January 1933 KWA AND THE APE PEOPLE A Complete Book - Kwa #2 by Paul Regard as Perley Poore

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de léger à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis désolé de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
