

Catalytic Asymmetric Synthesis

Widely acknowledged as one of today's most desirable, challenging, and economically advantageous techniques, Catalytic Asymmetric Synthesis promotes the creation of millions of chiral product molecules with a single chiral catalyst molecule and serves as a valuable method for obtaining enantiomerically pure or enriched compounds. Offering a thorough account of the significance, usefulness and major advances in catalytic asymmetric synthesis over the past decade, Catalytic Asymmetric Synthesis documents the explosive development of increasingly efficient and reliable methods for the synthesis of desired compounds in an enantiomerically pure state. Featuring contributions from K. Barry Sharpless, Ryoji Noyori, Hisashi Yamamoto, Eric N. Jacobson, Henri B. Kagan, Henri Brunner, Tamio Hayashi, Hidemasa Takaya, and other internationally renowned authorities, coverage provides detailed accounts of today's most important catalytic asymmetric reactions. Audience: Catalytic Asymmetric Synthesis is an essential reference for medicinal, agricultural, natural products, and synthetic organic chemists at all levels, as well as professionals in the pharmaceutical and agricultural industries.

Et les renforts arrivent encore Bon Åa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åa va Åa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅme si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest LibellÅs : Blabla lundi 1 aoÅt 2016 Revue des troupes Bon juste une petite photo pour montrer que je passe Å l'infanterie. j'adore l'Åbarbage. Oui certains diront que Åa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. PubliÅ par CdtK Å 17:06 2 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest LibellÅs : Blabla vendredi 22 juillet 2016 Pour une poignÅe de trous en plus VoilÅ les plaquettes de 6cm ont ÅtÅ percÅ... 1200 trous... oui oui. 1200 trous dans du plexi -vous savez le truc qui se colle une fois sur deux sur la mÅche. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÅt-. Mais Å quoi Åa correspond? Donc dire des trous c'est bien mais Åa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je

suis d'Ã©tre de ne pas avoir plus de soldats Ã pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÃªme table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu faire celle lÃ et autant en 8cm, Ã§a va. Il faut voir ce que cela m'aurait coutÃ© dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÃªme un trÃ¨s bon rapport qualitÃ©-prix par rapport Ã ce que je recherchais. Il le reste Ã Ã©barber les trous pour y glisser l'aimant et Ã§a sera parfait je pourrais retourner Ã mes figurines.
