

## Metamorphic Rocks: Recycled Rock (Exploring Science: Earth Science)

Metamorphic rocks, like the name suggests, morphed from rocks that already existed. These rocks form through changes in conditions like heat and pressure. The type of metamorphic rock that forms depends on how much heat or pressure is involved. During the transformation, metamorphic rocks can change properties such as shape and texture. In ancient Greece, pillars, sculptures, and cities were built from marble, a type of metamorphic rock. Today, marble and other types of metamorphic rock are still used in construction.

Et les renforts arrivent encore Bon Åsa sera la derniÅre revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åsa va Åsa avance bien. Je m'amuserais surtout sur les petites piÅces. LÅ c'est du monobloc donc mÅame si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque dÅbut de dÅfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du dÅfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest LibellÅs : Blabla lundi 1 aoÅt 2016 Revue des troupes Bon juste une petite photo pour montrer que je passe Å l'infanterie. j'adore l'Åbarbage. Oui certains diront que Åsa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. PubliÅ par CdtK Å 17:06 2 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest LibellÅs : Blabla vendredi 22 juillet 2016 Pour une poignÅe de trous en plus VoilÅ les plaquettes de 6cm ont ÅtÅ percÅ... 1200 trous... oui oui. 1200 trous dans du plexi -vous savez le truc qui se colle une fois sur deux sur la mÅche. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÅt-. Mais Å quoi Åsa correspond? Donc dire des trous c'est bien mais Åsa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅsu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÅame table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÅ et autant en 8cm, Åsa va. Il faut voir ce que cela m'aurait coutÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÅame un trÅs bon rapport qualitÅ-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åsa sera parfait je pourrais retourner Å mes figurines.
