

Apollo 11: The Moon Landing Logbook

The year is 1969 AND SOMETHING AMAZING IS ABOUT TO HAPPEN! Forty years ago, the Apollo 11 spacecraft took off on the biggest adventure in history: carrying three men to the moon for the first lunar walk ever. Now, with this round and colorful sticker book, today's kids can relive the thrill and join the astronauts as they make one small step for man, one giant leap for mankind. Every page is filled with fun, photos, and mind-boggling moon facts. Budding astronauts will be able to follow the course of the space race between the US and the Soviet Union; meet the American crew of the Apollo 11, see how they trained, and check out their gear; look at the mission logbook; watch the day-to-day action unfold; and get a great view of the big event. Plus: a page of out-of-this-world space stickers for decorating this book, a bedroom, or anything at all!

Et les renforts arrivent encore Bon Ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais Ça va Ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi Ça correspond? Donc dire des trous c'est bien mais Ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de léger à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis désolé de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, Ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et Ça sera parfait je pourrais retourner mes figurines.
