

## Explorers: Oceans and Seas

Explorers are designed to stimulate readers in the early elementary grades (ages 7-10), who are beginning to exercise wider reading, research and cross-referencing skills. They can be read from page to page, or as a fun extra element the reader can follow special page links to access information on related topics. Six fabulous artwork scenes are each followed up with photographic information spreads, which provide extra detail and background. In Explorers: Oceans and Seas by Stephen P. Savage, readers travel from the seashore to the deepest chasm, and from the warm waters of the tropics to the frigid Arctic. Along the way, they examine coral reefs, shipwrecks, sharks, whales, seals, and much more. The book's innovative structure allows young readers to chart their own course for scientific exploration.

Et les renforts arrivent encore Bon Åsa sera la dernière revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åsa va Åsa avance bien. Je m'amuserais surtout sur les petites pièces. LÅ c'est du monobloc donc même si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque début de défi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ par CdtK Å 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que Åsa fait parti du hobby mais c'est vraiment ce que je dÅteste le plus. Et puis lÅ c'est de l'industriel. Mais voilÅ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais Å quoi Åsa correspond? Donc dire des trous c'est bien mais Åsa renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÅger Å lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÅÅsu de ne pas avoir plus de soldats Å pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu faire celle lÅ et autant en 8cm, Åsa va. Il faut voir ce que cela m'aurait coûtÅ dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport Å ce que je recherchais. Il le reste Å Åbarber les trous pour y glisser l'aimant et Åsa sera parfait je pourrais retourner Å mes figurines.
