

Maurice and the Doomed Colony of Mars

The Maurice Series: Maurice and the Doomed Colony of Mars Maurice and the Doomed Colony of Mars continues the adventures of Maurice Haberman, a young boy growing up in a frontier mining colony which began in Maurice on the Moon. In Doomed Colony of Mars, Maurice and his ecologist mother are shanghaied into going to Mars to try and save the Eureka Colony, which is on the verge of ecological collapse. On the way to Mars, Maurice meets Shannon Kappel, the daughter of an Irish flight engineer who has also been recruited in the rescue effort. Sparks fly as the cultured girl from Ireland meets our frontier boy from the Moon! On Mars, Maurice becomes convinced that the problems plaguing the colony are not just accidents; he begins to see spies and saboteurs around every corner. Could someone living in this remote colony hundreds of millions of miles from Earth really be trying to destroy the environment upon which all their lives depend? Mars is a challenging environment for Shannon, who has never been to space before; and for Maurice, who has never spent much time on a planet with real weather. Can they survive Martian storms and dust devils as they explore craters, ancient lake beds, and the fabulous Mariners Valley on Mars?

Maurice continues to look for evidence of sabotage, but there doesn't seem to be any motive for one of the colonists to destroy their own home, and no one is quick to believe a notorious prospector and buggy pirate from the Moon! The tension mounts as Maurice and Shannon continue to explore; Maurice could be right about the saboteur - dead right! Teaching Science Through Literature: Maurice on the Moon is currently an adopted science text for students from 5th to 8th grade in several districts across Southern California. The book meets California State Science standards for Earth and Space Science, Physical Science, and Biological Science /

Ecology. A complete curriculum guide containing chapter by chapter science standards, questions, activities, and investigations that integrate science with literature, mathematics, writing, art, and other multi-disciplinary subjects is available at MauriceOnTheMoon.com. Teachers who are interested in using Maurice as a classroom text are encouraged to contact the author for suggestions and assistance in implementing this exciting book into their own classrooms. The curriculum is easily scalable for students at every level from the most basic to the most advanced. The discovery oriented activities closely follow the adventures of Maurice and his friends in the book. Let Maurice on the Moon help you put the sense of adventure back into your classroom! Other book in the Science through literature series include: Maurice on the Moon (Xlibris, 2006): Meet Maurice Haberman, a young boy growing up on the Moon in the frontier mining colony of Gassendi LEX. Maurice's parents both work for the Helium-3 mining company that owns most of the colony they live in; they brought Maurice to the Moon to escape the congested, polluted conditions on Earth. Maurice doesn't share his parents' enthusiasm for the Moon; in fact, he hates it and dreams of leaving the Gassendi colony and the Moon forever. Earth seems just out of reach, a colorful world where air is free, water falls from the sky, plants grow wild, and no one has to pay for oxygen or wear a space suit. Maurice will do almost anything to get to Earth, even stealing aboard a space liner! But leaving home isn't as easy as it seems, and paradise doesn't always keep its promises! Maurice on the Far Side: Coming soon!

Et les renforts arrivent encore. Bon ! ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest Libellés : Blabla lundi 1 août 2016 Revue des troupes Bon juste une petite photo pour montrer que je passe à l'infanterie. j'adore l'barbage. Oui certains diront que ça fait parti du hobby

mais c'est vraiment ce que je d'achte le plus. Et puis l'achete c'est de l'industriel. Publie par CdtK le 17:06 2 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Partager sur Twitter Partager sur Facebook Partager sur Pinterest Libellés : Blabla vendredi 22 juillet 2016 Pour une poignée de trous en plus Voilà les plaquettes de 6cm ont percé... 1200 trous... oui oui. 1200 trous dans du plexi -vous savez le truc qui se colle une fois sur deux sur la machine. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de l'acier lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'achète de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
