

## The Door in the Lake

Joseph Finney disappeared from a tent in a national forest and mysteriously reappeared two years later. He can't remember what happened to him but even more disturbing is that he doesn't look a day older than when he left. Chronologically fourteen, he looks and sounds and feels like a twelve-year-old boy. Joey battles strange physical conditions: a persistent runny nose that the doctor says is leaking brain fluid, a ringing in his ears that turns into a voice telling him to come to the door in the lake, and periodic seizures during which he seems to remember being sucked into a vortex of light at the campground where he disappeared. Then Joey turns to two college students who contact him via the Internet to suggest that he was kidnapped by aliens. He doesn't want to accept their explanation, but as his physical condition deteriorates there seems to be no choice but to return to the lakeside camp where he disappeared and confront what happened to him. A cross between *The Twilight Zone* and *The X-files*, this ALA Quick Pick for Reluctant YA Readers examines that area of the human psyche where the body and mind meet - or don't - and where identity resides.

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de léger à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis désolé de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça

va. Il faut voir ce que cela m'aurait couté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
