

## Family Matters (The Harry Starke Novels) (Volume 6)

Harry Starke loves a cold case, but this one is really colder than a hundred years cold. Family Matters is a whimsical tale, a flight of fancy. It takes place on the lonely coast of Maine, where Amanda, a true believer in the paranormal, has inherited you guessed it a haunted house. Or at least that's what the rumors say. It all begins when Amanda inherits the house, substantial assets, and a large sum of money from her grandmother. The windfall comes with a request to look into the disappearance of Elizabeth, Amanda's great-great-grandmother, more than a hundred years ago. Harry, a skeptic, a down-to-earth investigator who believes only in the facts, has a tough time dealing with Amanda's fantasies? We all know that the imagination can play tricks on a susceptible mind, especially when that mind is under stress. But is it just their imaginations? Could it be something more? You'll have to be the judge. Family Matters began some twenty years ago as a short story. It was the first mystery I yes, I did say I ever solved. You'll understand when you've finished reading it. Now I'll turn it over to the inimitable Harry Starke who, I'm sure, will do a far better job of things than I did. Blair Howard 2016

Et les renforts arrivent encore Bon ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais ça va ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme à chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de l'âge à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis désolé de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un

jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner mes figurines.
