

Know Can Do!: Put Your Know-How into Action

From bestselling author Ken Blanchard, whose books have sold more than 18 million copies worldwide Offers a foolproof method for putting your knowledge into practice Written in the entertaining fable format Blanchard made famous Attempting to better themselves - learn new skills, break bad habits, realize their potential - people read books, attend seminars, take training courses. And companies pitch in too, spending billions of dollars every year on professional development programs aimed at helping their employees become more effective. But in spite of what people sincerely believe are their best efforts, all too often their behavior doesn't change. The fact that it seems to be so hard to make new learning stick is an endless source of frustration for both individuals and organizations. For years Ken Blanchard has been troubled by the gap between what people know - all the good advice they've digested intellectually - and what they actually do. In this new book he and his coauthors, Paul J. Meyer and Dick Ruhe, use the fable format Blanchard made famous to lay out a straightforward method for learning more, learning better, and making sure you actually use what you learn. This engaging story identifies three key reasons people don't make the leap from knowing to doing and then moves on to the solution. It teaches you how to avoid information overload by learning less more, not more less. You'll find out how to adjust your brain's filtering system to learn many, many times more than ever before, ignite your creativity and resourcefulness with Green Light Thinking, master what you've learned using spaced repetition, and more. At last, an answer to the question, Why don't I do what I know I should do? Read this book and you will!

Et les renforts arrivent encore Bon Ça sera la dernière revue de troupes de la semaine. Donc on arrive à 300 figurines il en reste donc 420... mais Ça va Ça avance bien. Je m'amuserais surtout sur les petites pièces. Là c'est

du monobloc donc même si la ligne de moulage est visible -donc il faut barber presque tout le tour de la figurine... oui oui.- Comme chaque début de défi, je suis dans les temps, limite mieux qu'espérer. Mais par expérience je sais que c'est le creux du défi qui m'est fatal donc on verra quand j'aurais tout barbé :) Publié par CdtK à 17:37 4 commentaires: Liens vers cet article Envoyer par e-mail BlogThis! Oui certains diront que ça fait parti du hobby mais c'est vraiment ce que je teste le plus. Et puis là c'est de l'industriel. Mais voilà pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin août-. Mais à quoi ça correspond? Donc dire des trous c'est bien mais ça renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de l'ager à lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis d'ailleurs de ne pas avoir plus de soldats à pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la même table. Mais bon quand on voit que pour 30€ -3 plaquettes- j'ai pu faire celle là et autant en 8cm, ça va. Il faut voir ce que cela m'aurait coûté dans le commerce. On y rajoute le prix des aimants -15€ les 1000 fdpin- et j'ai quand même un très bon rapport qualité-prix par rapport à ce que je recherchais. Il le reste à barber les trous pour y glisser l'aimant et ça sera parfait je pourrais retourner à mes figurines.
