

Hope & Will Have a Baby: The Gift of Embryo Donation

Follow an inquisitive little boy who learns of his parents' quest to have children, and the success they ultimately achieve in creating a family. Told in a language a child can understand, read the tale of how mom and dad met, fell in love, and ultimately built a family. This story on the gift of embryo donation is part of a book collection that brings to light the many reproductive options of family building. Come and celebrate the unique gift couples can receive on their way to becoming a family. --Full Color with Illustrations. --Ages 3-7. About the Hope & Will Collection Ordinarily, most people don't think twice about how to build a family. Having biological children is presumed to be the way it is going to happen -- until it doesn't. It is at this stage that parents begin the journey to explore additional options, and this journey is not always easy. For those parents who choose third party reproductive assistance, these books provide a delightfully new and refreshing way to tell children about their unique beginnings. Written by mental health and reproductive specialist Irene Celcer, and boldly portrayed by internationally recognized illustrator Horacio Gatto, each stand-alone volume recounts the same story from a different perspective, highlighting four distinct pathways to conception: egg donation, embryo donation, sperm donation, and surrogacy. Each book in this collection provides a great vehicle for parents to tell children how they came into this world. Available separately, the other books in the Hope & Will collection are The Gift of Egg Donation, The Gift of Sperm Donation, and The Gift of Surrogacy.

Et les renforts arrivent encore Bon Åsa sera la dernière revue de troupes de la semaine. Donc on arrive Å 300 figurines il en reste donc 420... mais Åsa va Åsa avance bien. Je m'amuserais surtout sur les petites pièces. LÅ c'est du monobloc donc même si la ligne de moulage est visible -donc il faut Åbarber presque tout le tour de la figurine... oui oui.- Comme Å chaque Åbut de Åfi, je suis dans les temps, limite mieux qu'espÅrer. Mais par expÅrience je sais que c'est le creux du Åfi qui m'est fatal donc on verra quand j'aurais tout ÅbarbÅ :) PubliÅ

Oui certains diront que Ã§a fait parti du hobby mais c'est vraiment ce que je dÃ©teste le plus. Et puis lÃ c'est de l'industriel. Mais voilÃ pour les 6cm c'est fini et je verrais pour les 8cm de front plus tard -je dirais fin aoÃ»t-. Mais Ã quoi Ã§a correspond? Donc dire des trous c'est bien mais Ã§a renseigne pas beaucoup alors 1200 trous c'est : 594 soldats -de lÃ©ger Ã lourd- 231 cavaliers et 24 canons avec 4 artilleurs. Oui monsieur. Bon alors je suis dÃ©Ã§u de ne pas avoir plus de soldats Ã pied. C'est pas super grave, je doute que toutes les plaquettes soient un jour sur la mÃ©me table. Mais bon quand on voit que pour 30e -3 plaquettes- j'ai pu fait celle lÃ et autant en 8cm, Ã§a va. Il faut voir ce que cela m'aurait coutÃ© dans le commerce. On y rajoute le prix des aimants -15e les 1000 fdpin- et j'ai quand mÃ©me un trÃ¨s bon rapport qualitÃ©-prix par rapport Ã ce que je recherchais. Il le reste Ã Ã©barber les trous pour y glisser l'aimant et Ã§a sera parfait je pourrais retourner Ã mes figurines.
